1. An Information Disclosure Statement appears to have been filed on June 22, 1998, although the PTO form 1449 (if filed with that IDS) appears to have been separated from the instant patent application's file. The applicant are requested to submit or re-submit the form 1449.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,396,488 ('488) to Lahdemaki. '488 appears to teach: 1) an adaptive echo remover (canceler) that estimates far end signaling, See abstract; 2) a double talk detecting unit, See Fig. 2 and its description; and a control unit for suspending operation of 1) in the double talk state, See abstract.
4. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 6-7 are allowed.
